

~~CONFIDENTIAL~~

**MEMORANDUM FOR:** Director, Office of Technical Services  
Department of Commerce

**THROUGH:** Chief, Document Division/OCR

**SUBJECT:** Transmittal of Report entitled, "A Bibliographical  
Survey of Soviet Publications in the Field of  
Semi-Conductor Science and Technology"

**REFERENCE:** Memorandum of Understanding Between OTS and CIA,  
dated 6 Jan 59, C

1. In accordance with the terms of the referenced memorandum, we are forwarding two reels of microfilm of the subject report, which is a bibliography of approximately 4000 items on Semi-Conductor Material and Technology in the USSR. Because this bibliography has been microfilmed from the contents of a card file, there is no title page, hence we have provided one which may be used.

2. We have noticed that Chemical Abstracts have been referred to in the text and recommend that the American Chemical Society be approached prior to publication in order to obtain authorization for release to the public.

3. Will you please furnish CIA with 12 complimentary copies of this report when it is published.
